

**REMARKS**

Claims 1-12, 14-20 and 24-29 were pending in the above-captioned application. Claims 1 and 10 have been amended and claims 6 and 11 canceled in order to more clearly define and fully protect Applicants' invention.

Reconsideration and allowance of all pending claims 1-5, 7-10, 12, 14-20 and 24-29 is therefore requested.

The Office Action acknowledges the patentability of claims 24-29, which is gratefully acknowledged. In addition, Claims 6 and 11 are indicated as being allowable if rewritten in independent form, which is done herein by incorporation of the limitations of claims 6 and 11 into independent claims 1 and 10 from which they depend, respectively (with claims 6 and 11 canceled as a result). Thus, claims 1 and 10, and all claims depending therefrom should now also be allowable. Claim 1 is also amended herein to correct the spelling of "particles" as noted in the Office Action.

Therefore, all pending claims should now be passed to allowance.

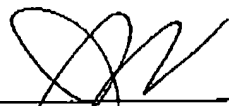

**CONCLUSION**

Based on the foregoing amendments and remarks, it is believed the above-captioned application is now in condition for allowance. If there is any matter which prevents the allowance of any of claims 1-5, 7-10, 12, 14-20 and 24-29, the

Examiner is requested to call, collect, at 615-242-2400, to arrange for another interview which may further expedite prosecution.

The Commissioner is authorized to charge any deficiency associated with the filing of this Response to Deposit Account 50-1202.

Respectfully submitted,

---
